

Operating Instructions Belwing easy move

Swivel

1. Hook the operating rod into the eyelet ring.
Pull down (if this is not possible, briefly move the fan awning to the left or right)
2. Quarter turn to the left or right.
3. Swivel the fan awning with or without operating rod
4. Lock it

Lift-Tilt

1. With or without the operating rod, turn the tilt eyelet in the direction of release.
2. Lift and or tilt slightly until it "clicks".
3. Lift or tilt in the desired direction.
4. When the height is reached, turn back until it snaps into place
